

# COMPANY PROFILE

**Mohammed Saeed Nasir**  
CEO

## CEO's Message

I am proud to share our unwavering commitment to excellence in IT systems integration. Our mission is to seamlessly blend cutting-edge technology with tailored solutions, empowering businesses to achieve new heights of efficiency, innovation, and growth. In an ever-evolving digital landscape, the importance of reliable and innovative IT integration cannot be overstated. Our vision is to lead the industry by setting the standard for customer satisfaction, innovation, and sustainable growth. We strive to transform the way businesses operate, enabling them to thrive in a dynamic and competitive environment.

**Our core values guide every aspect of our operations:**

### Innovation

We are passionate about embracing the latest technological advancements to provide creative solutions that meet the unique needs of our clients.

### Integrity

We uphold the highest ethical standards, ensuring trust and transparency in all our dealings.

### Excellence

We are dedicated to delivering superior quality in every project, guaranteeing the best possible service and outcomes.

Mr. Mohammed Saeed Nasir brings more than 25 years of practical experience in the fields of Information Technology, Broadcasting, and ELV solutions. His vast expertise and in-depth knowledge have been critical in pushing MSN's mission forward. Throughout his career, he has worked in diverse sectors, giving him a comprehensive understanding of how to strategically apply technology to foster business growth and optimize efficiency. His ability to translate technical solutions into tangible business outcomes makes him a valuable asset to any organization.

# Why Choose Us?

At MSN, we believe that the key to our success lies in our ability to understand our client's unique challenges and deliver customized solutions that drive tangible results. Our team of dedicated professionals is equipped with the expertise, experience, and passion to turn your vision into reality.

## ABOUT MSN

Whether you are seeking to integrate CCTV surveillance systems, broadcasting infrastructure, networking solutions, or other complex technologies, we have the knowledge and experience to make it happen. Our approach is rooted in meticulous planning, robust project management, and industry best practices. We stay up-to-date with the latest advancements and hold relevant certifications, ensuring that our clients benefit from cutting-edge solutions that adhere to industry standards.

## Our Vision

To be the leading systems integrator recognized for transforming business through superior technology integration. We aspire to set the industry standard for innovation, customer satisfaction, and sustainable growth, enabling our clients to achieve their full potential in the digital era.

## Our Mission

MSN mission is to seamlessly integrate cutting-edge technology solutions that drive business success. We are committed to delivering innovative, reliable, and tailored IT services that enhance operational efficiency, foster growth, and create value for our clients. Our dedication to excellence ensures that we exceed expectations, build lasting partnerships, and empower business to thrive in a dynamic digital landscape.

# What we offer Our Services

## ELV Solutions

We specialize in comprehensive ELV (Extra-Low Voltage) Systems and project engineering for commercial and residential buildings. Our specialization in ELV systems in UAE involves providing ELV solutions that comply with the required safety and security requirements and meet local and regional standards. As a company we are approved and accredited by the relevant authorities of UAE such as: SIRA, Ajman, Sharjah and RAK authorities.

## IP CCTV

MSN provides CCTV & ELV solutions for some of the largest and the most prestigious projects in the UAE. Most of the projects that we undertake include design & build, integration, installation, testing and commissioning of complete CCTV & ELV systems for many commercial and residential buildings.

## Structured Cabling System

MSN is specializing in Etisalat & Du Data Voice Structured Cabling. Our expert team is committed to delivering all aspects of installations to the highest professional standards.

MSN provides ongoing support and maintenance to ensure system reliability and performance.

## Access Control System

MSN offers state-of-the-art Access Control Systems designed to secure and streamline your premises. Our solutions provide comprehensive Security and management for various types of facilities, from corporate offices to industrial sites. We offer scalable solutions for growing businesses alongside cutting edge technology to protect against unauthorized access.

## Gate Barrier System

MSN provides top-of-the-line gate barrier solutions designed to enhance security and control access to your premises. Our systems are ideal for various applications, including residential communities, commercial buildings, and industrial facilities. We are focused on provision of high durability solutions for long-lasting performance in all weather conditions. Our solutions are cost effective as well operationally efficient.

**Authority Approvals:**
